**Tips:**

- Get rid of old tires, cans, pails, and other water-holding containers or store them upside down.
  - Drain water from tarps or plastic sheeting.
  - Keep eave troughs clean of leaves and debris.
  - Empty plastic wading pools at least once a week and store them inside when not in use or upside down
  - Keep boats/canoes covered or upside down.
  - Keep grass cut short and shrubbery well-trimmed. Piles of old wood and brush should also be cleaned up.

on wind conditions. We typically spray at dusk when the mosquitoes are most active.
