

New Emergency Notification System

Register Smart 911

Starting August 1, 2022, Calhoun County Emergency Management and Calhoun County Consolidated Dispatch will be moving to a new emergency notification system called Rave Alerts. These official, real-time alerts to the public will have potentially life-saving actions they may need to take to keep themselves or families safe.

Notifications will only be sent when the public needs to know:

- Emergency notifications (evacuation notices, missing persons, fugitives at large)
- Severe weather (in coordination with the National Weather Service)
- Traffic – if opted in (in coordination with Dispatch and CCRD)

Why Rave?

- Alerts can be targeted to a specific geographic area
- System is connected with the national Integrated Public Alert & Warning System, which allows us to send emergency notifications directly to phones if necessary
- Rave is a premier company used for emergency notification nationwide
- Easy for other local agencies to join and leverage mass notifications for their audiences as well

You will not receive advertisements or spam: This is only for official emergency notifications from Calhoun County Government and Calhoun County Consolidated Dispatch.

Message and data rates may apply. Go to getrave.com for privacy and terms information.

To sign up for emergency notifications, text CALHOUN to 67283. To also receive traffic alerts, text CCTRAFFIC.
